EVERSTRONG
ADHESIVE

EverStrong™ ES800 is a nonflammable spray grade neoprene-based contact adhesive suitable for permanently bonding a wide range of materials to include decorative laminates and veneers, fiberglass, glass, cork, particle board and foam. Water resistant and temperature resistant to over 200F.

PRODUCT USAGE

EverStrong™ ES800 is designed to be applied to both surfaces about to be joined. Spray an even coat of adhesive on both surfaces. Allow to tack. Place the surfaces together and apply pressure evenly across the full bonding surface. For best results: Make sure that the surfaces are dry and free from dirt, grease or oil. Ensure that the adhesives and substrates are at 60°F or higher. If assembly is delayed and the adhesive becomes too dry, apply a light coating again.

STORAGE

Store in clean, dry area. Recommended to store container off the floor if temperatures below 60°F.

PHYSICAL PROPERTIES

Appearance:	Liquid, clear or green
Base:	Neoprene
Solvent:	Methylene Chloride
Solids %:	23 – 27%
Density:	10.8 lb/gal
Flammability:	Nonflammable per ASTM E681-04
Shelf Life:	12 months (unopened)
Freezing:	Not damaged by freezing but return to room temp and stir before use.

PACKAGING

ES800-005C(G)	5 gal Pail
ES800-055C(G)	55 gal Drum

All available in Clear (C) or Green (G)

KEY FEATURES

- ★ Nonflammable Spray Grade
- ★ EverStrong™ Bond Performance
- ★ High Temperature Resistance
- ★ Fast Tack
