

EB99

VACUUM INFUSION
ADHESIVE

Specifically Formulated
for Infusion
Vacuum Molding

Fast Tack for securing
reinforcing materials
in mold

Low Shrinkage
during Cure

NO HAPS

Compatible with
Infusion resins

EVERBOND

PREMIUM • ADHESIVES

EverBond EB99 is a specialty industrial spray adhesive specifically designed for the infusion molding process. EB99 is designed to adhere and hold reinforcing fiberglass materials (mats, pads, strips) in place prior to and during resin infusion. Specifically formulated for the infusion process, EB99 will not interfere with the polymer matrix integrity and will cross-link with resins to create an integrated matrix.

PRODUCT USAGE

EverBond EB99 is designed to be applied to the reinforcing materials or mold prior to placement. Spray a uniform coat to the surface to be adhered. If heavy mat or pad, apply adhesive to both surfaces about to be joined. Spray an even coat of adhesive with at least 80% to 100% coverage of each surface. Allow to briefly dry until tacky. Place the surfaces together and apply pressure. For best results: Make sure that the surfaces are dry and free from dirt, grease or oil. Ensure that the adhesives and materials are at 60°F or higher. If surfaces are porous, a heavier coat is recommended.

STORAGE

For canisters, do not close the valve after use. Leave the gun and hose connected to the canister. Recommended to store canister off the floor if temperatures below 60°F.

PHYSICAL PROPERTIES

Appearance:	Liquid, clear or red
Specific Gravity:	.70 - .80 g/cc
Spray Tip:	6501
Spray Pattern:	Web Spray
Flammability:	Flammable per ASTM E-681-04
Solvent:	Hydrocarbons
Shelf Life:	15 months
Freezing:	Not damaged by freezing but return to room temp before use.

PACKAGING

EB99-0013C(R)	13 oz Aerosol Can
EB99-009C(R)	9 lbs Disposable Canister
EB99-027C(R)	27 lbs Disposable Canister
EB99-140C(R)	140 lbs Returnable Canister
EB99-270C(R)	270 lbs Returnable Canister

All available in Clear (C) or Red (R)

KEY FEATURES

- ★ Specifically Formulated for Infusion Vacuum Molding
- ★ Fast Tack for securing reinforcing materials in mold
- ★ Low Shrinkage during Cure
- ★ NO HAPS
- ★ Compatible with Infusion resins
