OTC Compliant

EVERSTRONG
ADHESIVE

EverStrong™ ES10 is a high solids spray grade contact adhesive that meets SCAQMD and OTC requirements. It is suitable for permanently bonding a wide range of materials including decorative laminates, edgbanding, veneers, glass, fiberglass, headliners, fabric, particle board and many plastics. Water resistant and temperature resistant to over 200°F.

PRODUCT USAGE

EverStrong™ ES10 is designed to be applied to both surfaces about to be joined. Spray an even coat of adhesive approximately 3-5 mils thick on both surfaces. Allow to tack. Place the surfaces together and apply pressure evenly across the full bonding surface. For best results: Make sure that the surfaces are dry and free from dirt, grease or oil. Ensure that the adhesives and substrates are at 60°F or higher. If assembly is delayed and the adhesive becomes too dry, apply a light coating again.

STORAGE

Store in clean, dry area away from sparks and heat sources.
Recommended to store container off the floor if temperatures

PHYSICAL PROPERTIES

Appearance: Liquid, clear or red
Base: Synthetic polymers
Solids %: 32 – 34%
Density: 7.8 lb/gal
Flash point: > 14°F (-10°C)
Shelf Life: 12 months (unopened)
Freezing: Not damaged by freezing but return to room temp & stir before use.

PACKAGING

ES10-005C(R) 5 gal Pail
ES10-055C(R) 55 gal Drum

All available in Clear (C) or Red (R)

KEY FEATURES

- ★ Spray Grade
- ★ EverStrong™ Bond Performance
