General Purpose

EverStrong ES55 is a high-performance multi-purpose spray adhesive. It features exceptional tack and grab, along with high repositionability after being sprayed. ES55 is designed for bonding a wide range of substrates, including, fiberglass, glass, upholstery, fabrics, foam, cork, and much more.

PRODUCT USAGE

Spray 6-8 inches from surface, apply uniformly. Do not allow to puddle. Allow adhesive to dry to the touch before bonding. Spray both surfaces for stronger bonds. Place the surfaces together and apply pressure evenly across the full bonding surface. For best results: Make sure that the surfaces are dry and free from dirt, grease, oil or other contaminants. Ensure that the adhesives and substrates are at 60°F or higher. If surfaces are porous, a second coat is recommended after the first has dried and become tacky.

STORAGE

Store in a well ventilated space. Protect from direct sunlight. Do not expose to temperatures exceeding 50°C/122°F.
